

World Childhood Foundation was founded in 1999 by Queen Silvia. From their offices in Sweden, Brazil, Germany, and the US, they have acted as a global force – impacting the lives of millions of children and their families. Since 1999 they have invested more than 130 million USD in over 2,000 projects in 21 countries – always aiming to drive sustainable and systemic change for the safety of children – with a particular focus on vulnerable groups as children in institutional care, children with disabilities and LGBTQ youth.
